Initial Toxicity Level %

The Energy Toxicity at the time of the reading.

Gateways and Gatekeepers

A Gateway is a vortex to a negative Astral Plane. In these places there is a constant flow of Souls between different dimensions and planes.

When a Positive Soul gets blown to the gate, there is a Gatekeeper who will not let it leave: this soul may remain trapped forever. There can be an enormous number of Souls trapped for eternity.

With this clearing, the negative Gateway is closed and sealed off and the souls are taken to the appropriate Astral Plane to continue their evolution in the Light.

Energetic Structure

Negative Portalways

Negative Portalways are openings/passages into Negative vibrational dimensions.
